

The role is to work within our existing long established core department of Irrigation. A high level of enthusiasm, good understanding of mechanical and electrical principles and sales experience are required.

THE SUCCESSFUL CANDIDATE WILL:

- Achieve and exceed sale targets for irrigation services
- Actively follow up on new irrigation project opportunities
- Collaborate effectively with other department managers and engineers to meet objectives
- Conduct site visits and generate project quotations for potential customers
- Foster long-term relationships with customers
- Organise engineers efficiently

THE IDEAL CANDIDATE SHOULD BE ABLE TO DEMONSTRATE THE FOLLOWING:

- Any relevant irrigation qualifications or experience
- Experience of commercial irrigation maintenance and installation works
- Knowledge of various mechanical tasks, as well as pumps, pipework and controls
- Experience in sales and building relationships with clients
- Ability to work independently and lead teams toward achieving results
